Chronic Care Roundtable

Industry Leaders Making a Difference

Industry Leaders Are Making a Difference.

Members of the **Chronic Care Roundtable** are collaborating with healthcare leaders to shape national campaigns to address the most pressing chronic diseases. Comprised of industry representatives from across the healthcare field, the Roundtable provides key resources and vital input to ensure better health and care for Americans.

Chronic diseases account for the vast majority of health spending: 81% of hospital admissions, 91% of prescriptions filled, and 76% of all physician visits. AMGA Foundation is addressing these pressing conditions by uniting medical groups, health systems, and industry partners to improve chronic care.

“Understanding patient needs through the perspective of AMGA membership will inform us on how to make the most out of future collaboration and improvements in patient care.”

— Elliott Clark, M.P.H.
Associate Director, Strategy and Planning
Merck & Company, Inc.

Measure Up/ Pressure Down®, our first national campaign under this initiative, improved hypertension detection and control for over half a million Americans.

Our current campaign, **Together 2 Goal**®, has already improved care for more than one million people with Type 2 diabetes.

We invite you to join the Chronic Care Roundtable.

AMGA Foundation supports AMGA members in their efforts to enhance population health and care through integrated delivery systems. The Chronic Care Roundtable provides an opportunity for industry leaders, national clinical experts, and other key stakeholders to shape national campaign goals, strategies, tactics, and metrics in partnership with AMGA Foundation leaders.

Current Members

AstraZeneca
Dexcom, Inc.
Healthy.io

Janssen Pharmaceutical
Companies of Johnson &
Johnson
Lilly USA

Merck
Novo Nordisk, Inc.
Pfizer
Sanofi

Benefits of Membership

- **Networking and access.** Substantive and personal interaction with AMGA Foundation leadership and AMGA members, representing the top medical groups in the country, as well as with your fellow industry leaders engaged in improving care delivery.
- **Making a difference.** Opportunity to shape, design, and guide a national campaign on chronic care.
- **Visibility.** Increased visibility among AMGA members, including some of the premier medical groups in the country, and the more than 120 million patients they serve. Also, national recognition through various AMGA communications, including AMGA's flagship publication, *Group Practice Journal*, AMGA's newsletter, *Inside AMGA*, and the Foundation's e-newsletters, *Chronic Care Roundup* and *AMGA Foundation Connector*.
- **Understanding gaps in care.** Gain insight into the gaps in resources that medical groups are experiencing and how your products and/or services can help bridge those gaps.

AMGA Represents:

- 440 member medical groups and integrated health systems
- 175,000 physicians, delivering health care to approximately 1 in 3 Americans

Membership Activities

Your company will be highly connected to AMGA Foundation, our leaders, our board, our scientific advisors, and our AMGA member groups through:

- Two annual and highly interactive in-person meetings
- Collaboration with medical group leaders on white paper/meeting summary
- Monthly e-newsletter updates
- Access to customized online resources

Membership Dues

Dues range from \$15,000-\$25,000 depending on your overall participation and financial commitment to AMGA and the Foundation.

“I really enjoy these working sessions—the cross-sector of individuals involved provides a great perspective of the challenges and opportunities that lie ahead.”

— Martine Thurin, M.S., J.D.
National Sales Director for Cardiovascular and Metabolism, Janssen Pharmaceuticals

For more information or to join, contact Lane Falcon, Manager, Development, AMGA Foundation, at Lfalcon@amga.org or 703-838-0033 ext. 394

Mission:

AMGA Foundation enables medical groups and other organized systems of care to consistently improve health and health care.

Vision:

AMGA Foundation serves as a catalyst, connector, and collaborator for translating the evidence of what works best in improving health and health care in everyday practice.
