

WellConnect Powered By Text-Em-All

Deliver important text messages and calls to patients and staff members.

Automated Calling

Record your message then upload your contacts, it's that simple. A voicemail is left when contacts don't answer.

Mass Texting

Reach large groups faster with personalized mass text messages and access to free pre-approved templates.

Conversational Texting

Manage replies and send unlimited one-on-one text conversations with individuals and small groups.

Use WellConnect For:

Flu Shot & Other Immunization Reminders

Alert patients and employees of upcoming flu shot dates, times, and locations.

Appointment Reminders

Remind patients quickly and efficiently of any upcoming or missed appointments.

Safety Guidelines for COVID-19

Keep patients and employees informed about infection control practices and sanitation measures.

Employee Wellness Checks

Become mindful of the wellness and good health of your staff during the COVID-19 pandemic.

Back-to-School Health Reminders

Inform parents about immunization requirements for the upcoming school year.

Create your account through VaccineShoppe.com® to get started for free.

WellConnect Benefits

Help Patients Feel Valued

Direct phone communication adds a personal touch to your messages.

Improve Patient Satisfaction

Better communication with your patients will keep them informed.

Automate Communications

Stop spending hours and days on the phone, reach hundreds of contacts in just minutes.

Help Increase Immunization Rates

Reach patients with timely reminders about vaccines.

Text Enable Your Office Number

Give patients another way to communicate with your office via text messaging.

Help Build Patient Loyalty

Engaged, satisfied patients remain loyal.

Helpful Features

Call Throttle

Adjust the rate that calls are sent out to control the volume of responses.

Voicemail Detect

Identify which recipients answered live or received a voicemail.

Analytics

Receive useful, real-time detailed reports of every text and voice message you send out.

Transfer

Let your contacts connect with you directly by pressing a number on their keypad.

Personalization

Create personalized messages that include custom fields, like appointment time.

Pre-Approved Templates

Use pre-approved templates to keep your contacts informed at no cost.

Surveys

Poll or survey your recipients by asking a question in your message.

Schedule Delivery

Schedule your messages to be delivered whenever you want.
