

RIZE Monthly

A newsletter for **Rise to Immunize™**, AMGA Foundation's national campaign aimed at improving routine adult immunization rates

February 2022 Edition

We hope to see you and your colleagues at the [AMGA 2022 Annual Conference](#) in Las Vegas, NV – March 9-12. This year's conference is designed to renew in-person connections and to share insights and lessons learned during the past two years of the pandemic. You'll find best practices around operational excellence, new patient care models, empowering your workforce, leadership excellence, moving to value, and more at AC22. Plus, you can count on the compelling keynoters, networking opportunities, and the collaborative environment you expect from AMGA conferences.

AMGA Foundation is excited to host a Celebration Luncheon & Networking event at AC22 on Saturday, March 12, 12 p.m.-1:45 p.m. During this time, we will celebrate Rise to Immunize™ campaign participants for their commitment to improving routine adult immunizations as well as other Foundation programs. We hope you [join us!](#)

As always, please don't hesitate to contact RiseToImmunize@amga.org with questions or for support.

Best,
- The Rise to Immunize Team

Campaign Spotlight

RIZE has forged relationships with a variety of nonprofit organizations to help expand the reach and impact of the campaign. We're pleased to welcome three new partners: AMDA – The Society for Post-Acute and Long-Term Care Medicine, the National Adult and Influenza Immunization Summit, and the National Foundation for Infectious Diseases. These organizations bring impressive subject matter expertise, resources, communications channels, and more to help us advance our campaign efforts. [Learn more](#) about our partners.

Resource of the Month

Learn more about coadministration of vaccines from JoEllen Wolicki, BSN, RN, who is a nurse educator within the Communication and Education Branch at the National Center for Immunization and Respiratory Diseases, Centers for Disease Control and Prevention. Coadministration of vaccines is an important clinical strategy that helps ensure patients receive all vaccines they need. [View](#) the recorded video and learn from a national expert.
