Together 2 Goal.

GOAL SCORED!

A VISUAL SUMMARY OF AMGA FOUNDATION’S TOGETHER 2 GOAL® CAMPAIGN – A FIVE-YEAR INITIATIVE TO IMPROVE DIABETES CARE
01. CAMPAIGN OVERVIEW
CAMPAIGN REACH AND IMPACT

› Campaign Years: 2016 - 2021
› 150 groups in 36 states
› 61,000 FTE physicians
› 2 million patients with Type 2 diabetes

Goal: Improve care for more than 1 million people with Type 2 diabetes
BUILDING ON A STRONG FOUNDATION

‣ Campaign Years: 2012-2015
‣ 128 groups in 36 states
‣ 47,000 FTE physicians
‣ 18 million patients
‣ Goal: Achieve 80% blood pressure control

Outcome: Improved blood pressure control for more than 500,000 Americans
When I heard about Together 2 Goal, it resonated with me. It’s a major task but it’s doable—and it’s going to happen.

CAMPAIGN FRAMEWORK
CAMPAIGN PLANKS

Participants committed to implementing at least one of the 11 evidence-based care processes or “campaign planks.”

- **EMPOWER PATIENTS**
  - Build an Accountable Diabetes Team
  - Integrate Emotional & Behavioral Support
  - Refer to Diabetes Self-Management Education & Support Programs

- **IMPROVE CARE DELIVERY**
  - Conduct Practice-Based Screening
  - Adopt Treatment Algorithm
  - Measure HbA1c Every 3-6 months
  - Assess & Address Risk of Cardiovascular Disease
  - Contact Patients Not at Goal & with Therapy Change within 30 Days

- **LEVERAGE INFORMATION TECHNOLOGY**
  - Use a Patient Registry
  - Embed Point-of-Care Tools
  - Publish Transparent Internal Reports
CAMPAIGN PLANKS IN ACTION

- Build an Accountable Diabetes Team
- Integrate Emotional/Behavioral Support
- Refer to DSME & Support Programs
- Conduct Practice-Based Screening
- Adopt Treatment Algorithm
- Measure HbA1c Every 3-6 Months
- Assess & Address Risk of CVD
- Contact Patients … Within 30 Days
- Use a Patient Registry
- Embed Point-of-Care Tools
- Publish Transparent Internal Reports

* Based on survey responses of 86 participating groups
## DATA REPORTING TRACKS

<table>
<thead>
<tr>
<th>Measure</th>
<th>Basic Track</th>
<th>Core Track</th>
</tr>
</thead>
<tbody>
<tr>
<td>HbA1C control &lt; 8 percent</td>
<td>✓</td>
<td>✓</td>
</tr>
<tr>
<td>BP control &lt; 140/90 mmHg</td>

NOTABLE MOMENTS
CELEBRATED ANNUAL OBSERVANCE

Each November, National Day of Action mobilized medical groups and health systems nationwide to take action to improve care for people living with diabetes.

Nov. 2018: Participants review strategies to fine-tune diabetes office visits

Nov. 2019: Groups discuss best practices for improving care delivery, empowering patients, and leveraging IT
REACHED MAJOR MILESTONE

Improved care for more than 750,000 people with Type 2 diabetes

...and over 200,000 patients with sustained bundle control for more than a year
These additional two years provide the opportunity for participating groups to hardwire their improvement processes and for new groups to learn from the great work that’s already been done.

HIGH-PERFORMER TRENDS
ENGAGE CARE TEAM

‣ Establish roles and responsibilities
‣ Hold regular meetings
‣ Define goals for success
‣ Empower staff to function at the top of their license (e.g., standing orders)
‣ Provide ongoing clinical staff education and training
‣ Consider and engage relevant specialists (e.g., pharmacist, dietician, cardiologist)
‣ Create accountability (e.g., data reports, action plans)
‣ Celebrate successes
DRIVE ORGANIZATIONAL CHANGE

- Garner organizational and physician leadership buy-in
- Identify a physician champion to amplify and sustain efforts
- Educate staff and providers on “why” to foster strong engagement
- Secure consensus on revisions to workflows and care processes
EMPOWER PATIENTS

- Focus on individualized goals and utilize shared-decision making
- Address social determinants of health
- Refer patients to DSMES or other education/support
- Prioritize a good “patient experience”
  - E.g., ease of appointment scheduling, wait times
- Be mindful of language choice
  - E.g., diabetic vs. person with diabetes
- Tailor communication to patient population
  - E.g., cultural adaptation of content, low-literacy materials
“OWN” THE DATA

- Conduct data review and validation
- Track progress over time
- Leverage campaign benchmarking reports
- Publish transparent performance reports at the provider, site, and system level
- Align compensation with performance
• Point-of-care tools in EHR
• Patient registries
• Remote patient monitoring (e.g., CGM)
• Point-of-care A1c testing
• E-coaching
• Automated patient outreach (e.g., EMMI)
• Population management software (e.g., stratify patients based on risk)
• Telehealth offerings
DEVELOP EXTERNAL PARTNERSHIPS

- Community-based organizations
- Faith-based organizations
- Payers/insurance
- Public health sector
- Outside providers
LEVERAGE CAMPAIGN RESOURCES

‣ Adopted multiple planks
‣ Used Campaign Toolkit to guide implementation
‣ Attended monthly webinars
‣ Submitted data quarterly
‣ Leveraged tools from supporting organizations & corporate collaborators
‣ Engaged in peer-to-peer learning opportunities
06. OUTCOMES
CVD INNOVATOR TRACK OUTCOMES

- **1,700** additional patients with tobacco-free status
- **600** additional patients with documented aspirin therapy (secondary prevention)
- **1,000** additional patients with documented aspirin therapy (primary prevention)
- **775** additional patients with a Rx for any statin
- **1,900** additional patients with a Rx for high-intensity statin
- **1,640** additional patients with LDL < 70 mg/dL
EYE INNOVATOR TRACK OUTCOMES

- 8,600 additional patients with documented screening
  - absolute improvement ranged from 2% to 21%
  - relative improvement ranged from 5% to 45%
DIABETES BUNDLE COLLABORATIVE OUTCOMES

- **8,000** additional patients with bundle control
- **3,100** additional patients with A1c control
- **5,900** additional patients with BP control
- **1,500** additional patients with medical attention to nephropathy
- **6,000** additional patients with lipid management
Together, we exceeded our campaign goal of improving care for over one million people with Type 2 diabetes.
Participating in Together 2 Goal® enabled AMGA Organizations to:

‣ Learn from others on the same quality improvement journey

‣ Leverage national comparative benchmark reports to drive improvement

‣ Discover proven, practical tools and resources from peers

‣ Reinforce the value of coordinated care delivery within their organization

‣ Achieve improvements in quality metrics critical to risk-based contracts
I found the Together 2 Goal® experience to be very satisfying, and hope to participate in future endeavors. It was wonderful to develop interventions to help improve the lives of millions of Americans. As a plank mentor, it was particularly satisfying to be able to share our organization’s blueprint for success to help others build solid programs. I really enjoyed this collaborative effort, which needs to be seen more often across medicine, both nationally and internationally.

BRIAN C. JAMESON, D.O.
Director, Division of Endocrinology
Department of Medical Specialties, Medicine Institute Geisinger
Being involved in AMGA’s Together 2 Goal® campaign has engaged our primary care medical homes and diabetes specialists through its monthly webinars, data sharing, and online resources to focus on best practices from around the country that have been proven to improve diabetes care. As a result, we have seen a significant reduction in the percentage of patients with poorly controlled diabetes, as defined as an A1c >9, from 29.3% to 20.8% throughout the campaign.

SCOTT HINES, M.D.
Chief Quality Officer
Crystal Run Health
Several things stand out from Premier Medical Associates’ involvement in T2G:

- The pleasure of learning from campaign experts and the collaboration with other campaign participants
- A greater than 10 percent increase in bundle control
- A much greater emphasis on reduction in cardiovascular risk for patients with diabetes, through improved blood pressure control, increased appropriate level statin prescribing and increased use of meds that have proven CVOT benefits

The providers and patients of Premier give thanks to AMGA for allowing us to be involved in this effort!

FRANCIS R. COLANGELO M.D., M.S.-HQs, FACP
Director, Outcomes Office, Allegheny Health Network
Chief Quality Officer, Premier Medical Associates
My role in the T2G campaign initially felt overwhelming. As a very large healthcare system, building our team of passionate quality leaders seemed unattainable. Where to start? The T2G toolkit and slides organized the work to be done and the individual affiliates worked on planks that meant the most to them. Our data showed that we made incremental progress which kept the teams engaged. My favorite aspect of this campaign was the sharing and collaboration that was encouraged from day one. The connections we made with others was priceless (via networking at events, email, reaching out to other plank mentors and webinars to share best practices.) My favorite campaign experience was introducing our four times to refer campaign to a vast network of physicians and ACPs during which resulted in so many valuable introductions and new relationships. I am so proud of what all of the members of the T2G campaign were able to accomplish together.

VALERIE SPIER, M.P.H., R.D., CDCES
Clinical Performance Improvement Consultant
SHIDEN Program Coordinator
Sutter Health
TESTIMONIAL

It is said that “time” has a wonderful way of showing us what really matters. This has definitely been true of our AMGA Together 2 Goal® campaign participation here at Ballad Health Medical Associates. During the five year period in we participated, our group has expanded to 850 clinicians, but amid the growth, our group never doubted the merits of adding all new clinicians to the program. Clinically, the program has provided our Physicians and APP’s with best practices to identify, engage, monitor and improve the lives of patients with Type 2 Diabetes. However, as important within our group, T2G has served as a unifying project, our results demonstrating that we are indeed better together after a merger. The interactions with other likeminded clinicians at the national level allowed me to be both a better Physician and CMO in regards to T2D care. I firmly believe that the overall investment, coordination and support from AMGA Foundation will be appreciated for many years to come by the groups who engaged and the patients who received care during the program’s run.

STEPHEN P. COMBS, M.D., CPE, CPHQ, FACFE, FAAP
Vice-President and Chief Medical Officer
